### **Executive Summary**

The purpose of this resolution is to authorize the filing of an application with the Missouri Department of Natural Resources, Financial Assistance Center's State ARPA Grant Programs.

### **Discussion**

This resolution is required for the filing of the grant application for the ARPA funds. The intention is to submit three grant applications in total, one each for the following three categories:

**Drinking Water Infrastructure Grant:** The plan is to add booster pumps to existing water towers (Aid, Pine, Wayhaven) to increase water capacity to the system by using water volume that is currently ready but unavailable. The Aid tower will also be relined to extend its useful life.

**Wastewater Infrastructure Grant:** This project will address the Infiltration/Inflow (I/I) recently identified in the 2021 I/I Evaluation Report. Steps will be taken to mitigate the most severe areas of the I/I and potentially improve the circumstances at the Wastewater Treatment Plant.

**Lead Service Line Inventory Grant:** This project involves hiring a consultant to assist in the completion of the lead service line inventory that is due by October 2024.

### **Fiscal Impact**

The grant funding will be used to fund the majority of the three projects, however there will be some in-kind cash contribution from the Drinking Water Infrastructure Grant and the Wastewater Infrastructure Grant.

**Drinking Water Infrastructure Grant:** This will be a \$5,207,173 project with the city committing \$207,173 to the project.

**Wastewater Infrastructure Grant:** This will be a \$5,000,000 project with the city committing \$250,000 to the project.

All city funds committed to the project will come out of the initial ARPA disbursement of \$2.4 million.
