Re: Right of Way acquisition on the Saint Louis Street bridge project.

Executive Summary

A resolution to authorize the city of west plains to pursue right of way acquisition for the Saint Louis Street bridge project.

Discussion

The purpose of this resolution is to grant the mayor the authority to sign any paperwork that may be required for closing on any property required for the Saint Louis Street bridge project.

Previously there have been projects where the mayor has signed for and closed on properties, and title companies have gone back and forth on what is required and whether or not the mayor can sign and this resolution attempts to head that off.

The replacement of the Saint Louis Street bridge with the use of CDBG funds is being completed with the assistance of SCOCOG and the City of West Plains.

Fiscal Impact

There will be cost associated with acquiring the necessary right of way, but the resolution does not have any fiscal impact.
