Re: Budget Amendment for the Fiscal Year Ending December 31, 2023

**Executive Summary**

The Finance Department, with the support of other departments, recommends the attached budget amendment for the fiscal year ending December 31, 2023. The budget amendment includes a net decrease in fund balance of \$1,509,105 for the governmental funds and a net decrease in cash balance of \$2,251,583 for the utility funds. Most balances are offset due to the ending fund balances for 2022 being higher than those estimated during the 2023 budget process in the Autumn of 2022.

**Discussion**

During the budget process in September-October 2022, each department prepared an estimate of expenses for the current fiscal year. These estimates were used to calculate the ending fund/cash balances for each funding source. Many incomplete projects and purchases budgeted in 2022 are carried forward in this amendment to the 2023 Budget.

The impacts on the ending fund balances are detailed below. Specific budget amendments are included in Exhibit A for the ordinance.

The significant changes in the funds include carryforward of 2022 budget appropriations, purchase of land near the Winter Sports Complex, diesel for the electric generator, closeout of work on the utilities SCADA, and utilities for the new warehouse facility. These costs are offset by revenues from one-half of the city's allocation of the American Rescue Plan Act which came in at \$1.2 million.

**Fiscal Impact**

The budget amendment includes a net decrease in fund balance of \$1,509,105 for the governmental funds and a net decrease in cash balance of \$2,251,583 for the utility funds.
